“ I've known Bud all my life and was a direct neighbor to him for the past 6 1/2 years. Very shocked and saddened by his sudden passing.

“ Bud was not only my brother, he was my friend. He was a hard worker. He loved his job at the railroad where he retired from. He also worked in pest control. At times he would act like a mad scientist which later in years affected his breathing. If you had a bug problem, call Bud and no more problems. He had a passion and business for fixing lawn mowers and small engines. He was always wheeling and dealing. He could convince you that you wanted and needed whatever he had, A true entrepreneur. The best barterer that I ever met. One year he convinced my sisters and I to go trick or treating the day before Halloween. He convinced us we would get the best candy because we were there first. As you could imagine we got doors slammed in our face and told to go home. My sister Tammy was little. If i remember right she didn't want to even go thick or treating that year. I was so mad at him. My sister Andrea even back then saw the humor in it. He had the best laugh you could imagine. He was such a jokester. He could always put a smile on your face. I will miss you Bro.

“ I am Buds sister. He was also my friend. He was a loving person. He took pride in his family. He loved working for the Railroad were he retired. He also loved doing pest control. He had a passion and a small business for lawnmowers and anything related to small engines. He was always wheeling and dealing. Along with being a big jokester. I remembered one Halloween. He told me and my sister's if we went trick or treating the day before we would get more candy. As you can imagine we had people telling us to go home cussing us as he watched and laughed at the whole thing. I believe I was passed. My sister Tami was so little I think she was so embarrassed that she didn't want to trick or treat that year. My sister Andrea say the humor even back then. Bud could always get you to laugh. I'll miss you bro. Love you!

“ I will always remember Bud, he always liked to tease us kids! for always trying to get me to smile if I Love..... (LOL) his kids will know the end of that sentence. I grew up with the Manley Klan! Your are in my thoughts & prayers always... Lori Carter

“ “Smile if you like boys!” That’s probably the phrase I remember hearing the most growing up, and damnit if I didn’t smile every single time! Growing up I remember filling Uncle Bud and Aunt Pilar’s house with a million kids- where the food was to die for (thank you Pilar) and my cousins would kill me in Nintendo- but also teach me their ways, ha!
Life is short and by far too precious- Uncle Bud and I had put our differences aside and chose to move forward with love years ago- I’m glad your Mom was pushy (imagine that) about that.
I’m sorry we’ve all grown in different directions-we should fix that, nothing but love from the whole Sams family.
My dad sends his condolences as well.
Cousin love,

“ I am Glenn's youngest sister. As a child I remember my big brother "Bud" walking me to grade school in his US NAVY uniform. I was SO proud that my brother, this big US NAVY person, would take time to do this for me. I am pretty sure I even took him for "show and tell". I love him and I will always miss him, but he and Pilar raised 5 wonderful children that I know he was very proud of and his legacy will live through them.
