“ Ron and I knew each other In high school and A couple years after school. Then a few years ago, after close to 50 years, We've made contact over the phone and became fast friends until now. We spoke nearly every day by phone and became even stronger friends than we ever were before.

I will miss Ron's humor, aectodes from "the old days" in KCK, and, most of all,his friendship. He was a good guy.
