“ *My Aunt Ann helped me learn to drive and if it was not for her I would not have. My Mom did not have the nerves to ride with me in a car and she gave it over to Ann. Ann was happy to teach me how to drive and she was most of all very patient. She even wanted me to learn how to drive a stick shift. She did help me with that as well but I did not like it. Looking back now makes me realize what good memories that made. Thank you Ann for your patients and your love you showed me over the years.*

“Annie was a big influence on my life! She was the perfect example of how to be independent and self sufficient. She never missed work and would always arrive early giving rides to many of her co-workers over the years. She didn't retire until well into her 70's because she loved working so much! She loved to bowl and has been on many bowling leagues at Mission Bowl for more than 30 years. She taught me to be fair, consistent and not to complain. I love and miss her. She will be greatly missed by her friends and family.
