“ *So many special childhood memories at the Harrity house. If you were a friend of one of Dona's kids, you were family! She baked me birthday cakes, she loved to take us to Baskin Robins, she helped me get my first job in high school (and another job while I was in college), she insisted on coming to my high school graduation and sat with my parents, she loved when I would visit her with my son. Her energy and humor are what I will always remember the most, and I felt pretty witty when I could make her laugh. Sending lots of love to Ronda, Susie, John, and Patti.*
