“ *Jom Dugan was one of my favorite humans. He would get a kick out of that since he loved animals so much. He played a big role in my life and had such an influence on me. I think his love for his wife was the most real love a family would ever want. It was amazing and Sue was amazing, as well! I only wish i would have stopped by the farm to see them both one more time. Heaven just got a little better when Mr. & Mrs. Dugan arrived. Eternal love!*
