“ Judy will be forever in my heart, she was a very loving person. I loved and love her like a mom. I use to enjoy going to spend time with her while waiting on Billy to get home from work. She was always so easy to talk to about anything. I always looked up to her. May she rest in peace and her family many warm memories.

“ *Hi mom. It's almost been a week since you left us and we all miss you so much. Your love and your memory fills our hearts and lives. We are taking good care of daddy. He misses you and when I find him staring off and lost in thought, I ask him what's on his mind and he always shares a great memory of you. Before you passed, we asked you to send us pennies from heaven and dad laughed and told you to send him dimes. He found his first today when we talked him into going out to dinner. Your gift put a little spring in his step. Thank you for blessing my life, for believing in me and loving me unconditionally; for encouraging me to never give up and to be confident and strong. Thank you for helping me raise my beautiful daughter and for whispering all those positive qualities in her ear, too. I will miss you every day. All my love, Kelly*
