“ *LaDonna was my Aunt and had suffered from Alzheimer's Disease for more than 5 years. It's an ugly disease and I wish that we could find a cure. Before becoming ill, she was always full of life and I will never forget the good times we had prior to her illness. As families do, we grew apart as I reached adulthood and moved on with my life while she moved on with hers but she is - and always be - a part of me.*

*I know I am not the only one grieving for her and I send hugs to each and every one of her friends and family during this time.*

*The family suggests that donations be made to the Alzheimer's Association – Heart of America chapter in her name.*
