“ Dr Steven Baker was a wonderful caring friend. He was my chiropractor since I was 23. He saw my baby boy when he was 4 months old. I got up against the table with Tyler in my arms. He lower us then he adjusted my baby boy. When I had Tyler it was an extreme delivery my son weighed 10lbs 9 1/2 ounces and 22 inches long. I am only 5'1". That poor baby about killed me . I was only in labor for 5 hrs. They tried the vacuum then forseps. They thur my pelvic out of place. I had so much fluid in my legs. I woke up at home and I couldn't stand or walk. They couldn't figure out what was wrong but Steve knew. That God. I screamed my bloody head off at the doctor's and the hospital. I thought I was paralyzed. Nope Steve worked on putting my pelvic back in place. It hurt but I knew he had my back. And my baby boy neck was jacked up. But we're both doing well because Steve knew what was wrong and he fixed both of us. Steve you will truly missed. But your Son is taking good care of me know. God bless your family and prayers for all. Thanks my friend.

“ Dr. Baker was a very caring man. My husband had back and sciatica nerve problems. One time he had an episode that kept him from walking. Dr. Baker took care of him during the week including Saturdays to get him back so he could walk. I so appreciate what he had done for him. He helped me also and I thank him too. God Bless his family such a wonderful man.

“ Steve, Connie, and I attended and shared a house in Emporia State University in the early 70s and remained friends.
We did quite a lot of traveling to many great places during this time, always fun with a great crowd.
I got to see Steve conduct his educational seminars with hours of knowledge which amazed me at how extensive it was.
Was so fortunate to be a part of and included with their children and grands.
My condolences to all of you at this time.
